## **EDUCATIONAL ACTIVITIES**

During the month of February 2021, the institution under the Department of Health science sent us (year 2 students) for our clinicals at various hospitals and health centers around the country for us to gain experience. We were expected to return back to school after three months for lectures. This did not happen however, because all the students at Legacy University were informed that the school was in the process of changing ownership. A new investor was in the process of taking over Legacy.

We were made aware of the fact that the institution would undergo a name change and would have to go through a process. The name was going to be Future Entrepreneurs University. We were subsequently informed that the Accrediting body responsible for universities and colleges, had revoked the license of Legacy University due to outstanding debt. Negotiations were underway to try and resolve these issues. We are still waiting to hear from them. We were also advised to stay at our designated hospitals and health centers till further notice. All inquiries about this matter should be directed to Legacy University as they can answer all the questions concerning this matter.

At my post at Serre-Kunda Health Center I worked/trained at these various departments;

- Outpatient
- Labor and Delivery
- Public Health
- Eye Unit
- Antenatal ward
- Tuberculosis
- General Laboratory
- Pediatric Unit

- Pharmacy
- Family Planning

In addition to working at the various departments, I continue to take part in the day to day activities at health center namely;

- Consultation
- Diagnosis
- Administering medications
- Taking vitals
- Immunizations
- Delivery

The government of The Gambia recently sent a COVID-19 team to administer Covid -19 vaccines at the health center. I have had the chance to see them perform their duties and gladly took my dose of the vaccine. I am fully vaccinated.

I sincerely hope that Legacy University and Future Entrepreneurs University resolve their issues so that we can resume lectures. In the event that a compromise has not been reached, I would have to look for another university to transfer to. In any case, I will keep ISTEPUP updated. Once again, all enquiries on this matter should be directed to Legacy University.
