

Hello Donators,

This is Angelina. I trust you are doing well. I am doing well too. Due to the pandemic, the academic period has been reduced by 10 weeks (from 52 to 42 weeks). Students now have to work extra hard to cover the course content of 2nd year. This has made the year quite a stressful one but I have everything under control.

To make matters worse, university teachers in the country are on an indefinite strike from 2nd August and are now negotiating with the government for salary increment. We hope the negotiations end soon so we can continue with the academic year smoothly

Currently, we have about 2 months left to complete the academic year (22nd October, 2021). That is if everything goes according to the planned academic calendar. As stated early on, I am doing very well, I do not have any challenge with personal studies and I still study with my study group

I pray you stay safe.

Kind regards,

Angelina Mintah
