

Update Paul Kalungi – Start of third year

Dear sponsors

As a recipient of your financial support, i want to thank you for helping to me make my college education a reality. currently am in my third year, first semester which started in august 2018. your generous giving has helped me to reach this far at obtaining my degree in Nursing at Clark International university formerly IHSU. You paying my fees has given me the ability to focus on my academics with less concern of paying fees for myself. this semester, we have only one month and a half in class and two months on clinical placements. so as i speak now, we are left with only 2 weeks to start clinical placements.

As a high school student in a small village in lugoba, i always dreamed of joining university and becoming a celebrated medical person; but because my parents didn't go to college nor even making it to high school, i was never sure that a university dream would come true for me. i have been at this university for three years now and am realizing my dream everyday. i am also involved with fresh start foundation, a dually registered non government that seeks to help the underprivileged people in our societies through the five sectors of the world sustainable development goals for example health and sanitation, youth empowerment, environment conservation, poverty alleviation and women emancipation. on the 22nd of September we conducted a one day medical camp in Bwaise where a total of 520 were reached. This idea was began by me with the help of my fellow classmates. we were supported by the well wishers to carry out a one day medical camp. pictures attached.

without doubt, this scholarship will play a role in achieving my dreams. because of your generosity, the financial burden placed on me to pursue my education is reduced. that means i can spend more time on my studies, research, charitable activities and less time worrying about my finances

once again, i want to thank you for this generous giving. i understand that without people who are generous and caring like you, a college dream would not be a reality for students like me. knowing that someone else cares about my education motivates me to strive extra hard for excellence. i have been truly touched by your generosity.

thank you for investing in me
thank you for this opportunity
