

Update Caroline Anyait – January 2019

Dear sponsors,

I am Anyait Caroline, 25 year old single Ugandan female, born and raised in a humble family of 8 siblings and 9 cousins.

I am pursuing a bachelors in medicine and surgery in Gulu university; located in northern Uganda. It is a 5 year course and a week day program. I am in year one and now began second semester. It has always been my childhood passion to pursue this course. When I was selected to join the university; it was both a moment of joy and worry since I barely knew where all the finances would come from.

Amidst all the struggles; I was able to complete first semester successfully.

I love work and feel happy when I can be of help to those under my care; but I cannot do this alone.

I kindly beg of you to help me support my studies. I desire to be a pillar to those in my care and an inspiration.

Together we can make a difference and the world a better place. Thank you very much; may God bless you. I love you all.

Good day.

All from Caroline Anyait.
