

2nd April, 2021
Dear Sponsors,

UPDATES

It is with pleasure that I write to you. sorry for the delay in my reply.

The current state of the country regarding the covid-19 virus is quite stable. I had the first shot of the Covax vaccine a month ago and things have been very smooth.

I humbly write to inform you on the current happenings in my life. The academic year resumed on the 9th January 2021.

The medical school calendar is a little different from that of other programmes. It is a continuous academic year without a break until November when I go to the fifth year. academic activities have been great with the fourth year so far. I have my first surgery OSCE from 12th to 16th April, 2021 and I am very hopeful I will do great.

Academic work is moving quite smoothly.

Below are copies of my academic transcripts for the first three years.

Kind regards,
Paul Kwofie.
