

Dear Bente and Parmida,
I hope you are all well.

Thank you so much to Entire fraternity of i STEPup and Eva Wouda my buddy; for your generous support towards my studies by paying my tuition fees and emotional support; until now that I have come to the end of my 5 year course(Bachelor of medicine and Bachelor of surgery) at GuLu university, northern Uganda, Uganda .

Thank you so much for being pivotal in helping me in achieving my long term dream of being a medical doctor; I am indeed humbled .

I have just completed my final exams and currently doing research.
I will wait upon ministry of health to post me for 1 year internship in a regional referral hospital after current in- terns.
Meanwhile I will be doing pre- internship till that time.
Thank you once again.
May the Almighty bless you all 🙏.

Anyait Caroline.
