

Dear I-steput,

I want to use this opportunity and say a very big thanks to the sponsorship programmed together with my buddy for motivating me by paying my school fees and other charges, which tremendous help me during my year one.

I pray that God will continue to bless each and every member of this programmed.

However, I am sorry for not getting in touch with you as earlier as expected, it was not really intentional. I was not with phone, my phone got spoil and I was not with money to replace it back, I struggle a lot to even have this but I thank God I have gotten it now.

Moreover, in the email you asked me to send you what I have been to in this last semester. Well am happy to say that I am presently on clinical posting and I am presently in year two. I am far away from our school now because we are doing our clinical experience in the capital of sierra Leone.

Moreover, I will send you your picture while I was in school before coming to the capital (Freetown) for the clinical experience and also picture on my clinical experience. The above picture is my result and it breakdown, I have made it successfully to the next level. The clinical experience is lasting for four months and I am doing it in different health facilities in the capital (Freetown). It is not really easy but I thank God with your support I am able to focus and learn as I don't have to worry much about fees except other charges.

MOMOH JAWARA
