

## **Update Fredy Joseph December 2023**

Dear iSTEPup organization,

I would like to appreciate your good work and endless hours of service that you have dedicated to me. All that work provides a good and honest scholarship. I appreciate the positive attitude and ability to motivate people to achieve their goals.

Your devotion towards health care work is inspiring other scholars, which strengthens the motivation among indigenous and donors. I am pleased to have your support all of the time in my goals aiming to support others in the low middle income country. You deserve high praise for the way you handled the work. Thanks for giving the best to people satisfying their achievements. With this letter I have attached a couple of pictures of me in college with some of my college mates. Below you can find the invoices of payments for my new semester of the 2<sup>nd</sup> year.

Together we step up for the better universal health!

Yours sincerely,

Fredy Joseph
