

## Student Update Goodluck Banda April 2025

I am delighted to express my sincere gratitude to Istepup for their invaluable support, which has enabled me to pursue my career aspirations. Due to circumstances beyond my control, I had been unable to provide updates for some time, as I do not own a smartphone or laptop. However, when I learned that updates were required, I made every effort to find a way to submit mine. Fortunately, one of my colleagues, also an Istepup scholar, kindly allowed me to use her phone to send my update.

Currently, I am stationed at Mangochi District Hospital, where I am undertaking my practical sessions focusing on Family Planning, Medical and Surgical Nursing, Under-five care, and STI management. I am now in my third semester (first semester of my second year) and anticipate completing my studies in February 2027.

Below are my photographs and my latest semester results. I pray that the Lord continues to bless and guide the Istepup team.
