

Student Update Aminata Santigie Koroma - May 2025

I want to thank the i-step up foundation for helping me this far in my educational pursuit. I came from a family where they believe that education is meant for boys and girls are to be in marriage to bear children. With my new carrier everything is going on very well, I want you to continue with the sponsorship so that I can change my story and inspire others in my community.

However, I promise to fulfil all the criteria as mandated by your foundation as long as you keep sponsoring me. I don't even know how to express my sincerity, your programme will help me to become great in my community and inspirational to others.

Finally, with this kind of sponsorship, I will be able to take part in the global health in order to save lives, allivate suffering and promote good and meaningful into the nursing profession.
