

## **Student Update Magreth Sadock - May 2025**

Hello everyone!

I am Magreth Sadock Gervas, from Kigoma Region, Kasulu District in Tanzania. Since last October, I have started my studies in pharmaceutical sciences in Kigoma town. I am forever grateful to the support from iStepUp which has enabled me to pursue my dreams of becoming a pharmacist.

My own family does not have the financial means to support me to do this, so I am really happy that through you I can still study! After finishing secondary school, I had a lot of stress thinking about my future, not knowing what's going to happen. But I thank God that I am now enrolled at this college.

I am also happy to report that I have passed all the exams for the first semester; the two exams from the college and one external final exam. At the beginning of this May I started on the second semester and so far things are going well.

I am confident that by hard work and dedication I will make it through my studies.

What I need from you is to please continue my sponsorship, so that I can get more knowledge and experiences while I am studying, and in the end be able to reach my goals.

Below you will find two pictures of myself in school uniform and one picture with my classmate.

Thank you so much for everything!

Magreth Sadock

First year Pharmaceutical Studies student
