

Dear Donators,

December 2025

I would like to take this opportunity to sincerely thank you for your continued support and generosity. Your kindness has made a very big difference in my life and I am truly grateful.

Over the past period, I have been actively focusing on my studies and personal development. I have been working hard and doing my best to continue with my education despite several challenges. There were times when paying school fees was very difficult, and this caused a lot of worry. In addition, I often assist my mother by helping her sell tomatoes so that we can support our household. Because of this finding enough time to study had sometimes been challenging, but I have remained determined.

Even with these difficulties, I have continued to work hard in my studies and attend classes as much as possible.

Your support has encouraged me to stay focused and not give up on my education. I am learning not only academic knowledge, but also important life skills such as perseverance, responsibility and resilience.

Your help has given me hope and strength during difficult moments. My goal is to complete my education successfully and in the future, use my skills and knowledge to support my patients and many everywhere and everytime.

Thank you once again for believing in me and Walking this journey with me. I truly appreciate your support and I promise to continue working hard to make the most of this opportunity.

With heartfelt gratitude,
Mary Webster Lukali.
