

Dear iSTEPup Scholarship Foundation Team,

I'm Bernadettar Hazwell, a 20-year-old nursing and midwifery student from Malawi. I'm currently pursuing my Bachelor of Science in Nursing and Midwifery at Malawi Adventist University (Malamulo College of Health Sciences) in Thyolo, Makwasa.

As a future nurse, my heart is set on providing compassionate care to those in need, especially those who lack access to healthcare facilities. I believe that everyone deserves quality healthcare, regardless of their background or circumstances.

My plan is to work in underserved communities, providing essential healthcare services and empowering individuals to take charge of their health. I aim to be a beacon of hope for those who need it most.

I'm grateful for your support and encouragement. Your contributions will help me reach my goals and make a positive impact in Malawi's healthcare sector.

Thank you for believing in me and my vision. Together, we can make a difference! #NursingForAll
#HealthcareForAll

Best regards,

Bernadettar Hazwell
