

My name is Martiniusi Byamungu Adra Berith. I was born in Kiteme village, Muleba District, Kagera Region in Tanzania. I am the fourth-born child in my family of eight children. Dear Step Up, my goal is to become a doctor. by studying a Diploma in Clinical Medicine at Ndolage Institute of Health Sciences, located in Muleba District, Kagera Region.

I am passionate about studying Clinical Medicine because my greatest ambition is to help people who are sick in my community, support them to recover, and enable them to continue supporting their families. Dear Step Up, the Clinical Medicine course will take three years, from 2025 to 2028 im very thankfully for your support for helping me to achieve my dream

God bless you

Yours faithfully,

Martiniusi.
