

Dear ISTEPUP team

My name is Fanny Nyomborowa. I am 28 years old and from Malawi, and I am honored to have been selected as a new recipient of the iSTEPup Foundation scholarship. I am currently studying at Malamulo College of Health Sciences, where I am pursuing a Bachelor's Degree in Nursing and Midwifery. I am in my second year, fourth semester.

I am very grateful for this opportunity. Being granted this scholarship is a great encouragement to me and to my family. It comes at a time when meeting school fees has been challenging, and your support gives me hope and strength to continue with my education.

At the moment, I am preparing and submitting the required documents, including my invoice, transcript results, so that the scholarship process can begin. I appreciate your patience and guidance during this stage.

Right now in school, I am learning important nursing and midwifery skills through both classwork and clinical practice. These lessons are helping me build the knowledge and confidence I need to care for patients safely and with compassion.

My future plan is to complete my degree and serve in Malawi, especially in areas where there are shortages of nurses and midwives. I hope to support mothers, children, and vulnerable communities by providing quality healthcare. In the long term, I also hope to advance my studies and grow into a more specialized or leadership role in nursing.

Thank you very much for choosing to invest in my education and future. This scholarship is a big step toward achieving my dreams, and I am committed to working hard and making you proud.
