

Study progress

Current study year or semester: Second year, forth semester

Total study years or semesters: 4 years, 8 semesters

Expected year of graduation: 2028

Are you experiencing delays in your study progress, or are there unforeseen circumstances that affect your studies? If yes, please specify: No currently I'm not experiencing delays that may affect my studies.

My update:

Over the past year, I've been focusing on maintaining my academic momentum, and I'm proud to say I've been able to pass my exams with good grades . To achieve this, I've been prioritizing my studies, staying organized, and seeking help when needed.

Looking ahead, my plan is to keep pushing myself to excel academically. I'll continue to attend classes regularly, participate in discussions, and stay on top of my assignments. I'm also exploring opportunities to develop new skills and interests that'll complement my studies, like joining study groups.

In the coming study period, I aim to:

- Stay focused and motivated
- Improve my time management skills
- Seek out additional resources when needed
- Support my peers in their academic journeys

By staying committed to my goals, I'm confident I'll continue to make progress and achieve my academic objectives .
