Dear iSTEPup

May I take this opportunity to express my gratitude for your support in paying my school fees during the past academic year. Your assistance has been a great help to me, I really appreciate.

I started my journey with the iSTEPup Foundation in August, 2024 which was my second year of studying Certificate in Clinical Medicine. In March, 2025 we were sent to different hospitals for clinical allocations. I really enjoyed the clinical allocations because we learned a lot of things practically, I have gained experience personally. After our clinical allocations in June, we wrote our final exam (Licensure) in July, 2025 and the results were out in December, 2025. So far I am done with my studies and I am waiting for graduation which is expected to happen in 2026 or 2027.

Once again I really appreciate for your support, I have reached this level because you lifted me up financially. Ups and downs were there but you didn't leave me along the way.
