

YEARLY ACADEMIC REPORT FROM CHIFUNIRO. A. KAMETA

I would like to sincerely express my deep appreciation for the continued financial support that you have provided towards my education. It has significantly contributed to my academic progress and enabled me to remain focused and committed to achieving my professional goals in the nursing field.

ACADEMIC PROGRESS UPDATE

I have just completed third year, second semester of my studies. During this semester, i undertook courses in Pediatric Nursing and Nursing Management, which were covered over a period of 6 months, including both theoretical and clinical components.

Throughout this semester, i have gained comprehensive knowledge and practical skills in the care and management of pediatric patients. This includes growth monitoring, management of common childhood illnesses and provision of family-centered care. Additionally, the Nursing Management course has equipped me with essential leadership, communication, and organizational skills required in healthcare settings.

The clinical exposure has further enhanced my ability to apply theoretical knowledge into practice, improve patient care and work effectively within multidisciplinary teams. These experiences have greatly contributed to my personal and professional development.

I was scheduled to sit for my end of semester examinations starting from 30th March to 1st April 2026. The results are expected to be released by the end of April or early May 2026, and i will send them to you once they are available.

So far i have two semesters remaining to complete my studies.

Once again, thank you for your support.

Kind regards,

Chifuniro Alexander Kameta
