

Goodluck Banda

Date : 4th April 2026

Dear iSTEPup,

*I would like to thank Istepup for supporting my academic journey. For the past year 2025 to 2026 has been a wonderful year achieving both theory and practical. This opportunity is more than assistance—it is an investment in my future, my profession, and the communities I will serve.*

*The past year I had an opportunity to have clinical experience that shaped me into a resilient and compassionate student nurse. In medical nursing, I learned the importance of holistic care, attending to patients with chronic illnesses and offering both clinical management and emotional support. Surgical nursing exposed me to the precision and discipline required in perioperative care, where teamwork and vigilance safeguard patient outcomes. My time in the Intensive Care Unit was particularly transformative, as I cared for critically ill patients whose survival depended on meticulous monitoring, rapid interventions, and unwavering dedication. In theater nursing, I gained firsthand knowledge of sterile techniques, surgical preparation, and the vital role nurses play in ensuring successful procedures. Apart from these, I also attended STI and ART clinic. After these experience I attended the exams and am happy to tell you that I passed in all the subjects.*

*These diverse experiences have deepened my commitment academic qualifications and expanding my professional scope. With your sponsorship, I am empowered to build upon this foundation, acquire advanced knowledge, and contribute meaningfully to my nursing profession. Your support is not only a gift to me but also to the patients and communities who will benefit from the skills and expertise to develop.*

*Thanks so much.*
