

**[JOHN MWALE ]**

**23/3/2026**

---

*Student update: John Mwale, Nursing, Malawi*

*"It's all because of you that i have finish my second year where I was doing mental health, paediatric and community health nursing and I am in my third year , semester 1 which started on 3January 2026 which happened to be my final year as well.*

*I am a happy person now my grades looks promising, although there maybe some hiccup in term of food and accommodation but the most important thing is school fees is solved now. Currently I am at area 25 hospital doing antenatal, Help women in labour And postnatal doing my clinical practical and I will be here of 14 weeks doing low risk then I will go for my end semester exams in July.*

*It's my wish to be part of the health workforce in my country that will bring solutions to our health sector*

*and reaching so many people with health solutions by utilize my web designing and technology skills since I will graduating in 2027 February if all goes well*

*which has been made possible by iSTEPup."*

**Yours John mwale**
