

6th April , 2026

Dear i- Step-Up

I am writing to express my deepest gratitude and thanks for the opportunity given to me, by paying for my college fee during the past academy year. The assistance as being of great help to me. For that I want to give a big thank you, and I am honestly grateful for the financial and moral support to reach this far.

The academic year of 2025/2026 has marks my final year of study as a State Registration Nurse. Last year was very challenging which demands a lot of working and studing which is so demanding, but I am a person who is always ready to face challenges in my field of work and always do my very best to see that I archive my goal as a nurse which is to save lives and care for my patients under my supervision.

As I end my promotional examinations, we are sent on clinical posting for three months, but since I am a nurse already and working at Masanga Hospital, the school thought it feet to do my posting in my place of work which has help me to perform both duties simultaneously.

Masanga Hospital is one of the referral centers in my country, we received so many patients with different conditions which has help me to grown as a person and gain experience and creat a platform for me to learn on the different cara for patients, and my responsibilities as a nurse and know my lemit in caring for my patients.

This coming academy year will even be more difficult and demanding because it my final year of study. It will involve more intensive studies and practical work for us to well prepare for the our forth coming examination which is the school final examination follows by the State Board Examination . The last thing I have to do is to write my write my case study which involve a lot of writing, visitation and follow ups on the patient I will choose as my case study even when he / she left the hospital. I am determine to put my academic work more seriously which I do believe, it will be a great help to see that I archive my dreams of being a nurse of great substance in my community, my country and the world as a whole so help me God.

Once again I want to give a big thank you to i- Step-Up for the opportunity given to me.

Yours faithfully

Kadiatu Tholley.
