

During my past semester, my studies focused on psychiatric nursing, medical surgical nursing iii, and community health nursing iii. A major highlight of this period was completing a total 16 weeks of practical clinical rotations. Psychiatric nursing 4 weeks at Zomba central mental hospital, community health nursing iii (4 weeks) at Zolozolo Health Centre in Mzuzu covering IMCI, occupational health nursing, community diagnosis and community home based care and Medical Surgical Nursing iii (8 weeks) at Zomba Central Hospital across theatre nursing, Intensive care Unit, gynecology & obstetrics and Emergency and trauma nursing.

I have officially commenced level 4 semester 1 today, Attached to this communication. please find my official examination results for level 3 semester 2.

This semester, I am undertaking three core modules; Entrepreneurship, Midwifery science 1 and Anatomy and physiology of obstetrics for 8 weeks then November I will be going for clinical practice for midwifery science 1 (low risk antenatal, labor ward, postnatal).

I am deeply grateful for the support of the iSTEPup foundation, which allows me to focus on my mission of serving Malawians health care system. Thank you once again for your unwavering commitment to empowering healthcare professionals in Malawi.

I look forward to keeping you updated on my progress this semester

Yours sincerely

Elenesto Kanthenga
